## EX1: Book shop CRUD with Local storage

The screenshot shows a web application for a book shop. On the left, there is a form to add a new book with fields for Name (Haraki), Category (animate), and Price (15000 riels), and an 'Add' button. On the right, there is a list of books, each with a 'Book-logo' icon, Name, Price, Category, and 'Delete' and 'Change name' buttons. The books listed are:

- C programming, Price: 50000 riels, Category: programming
- C++ programming, Price: 50000 riels, Category: programming
- C# programming, Price: 50000 riels, Category: programming
- Java programming, Price: 50000 riels, Category: programming
- JavaScript programming, Price: 50000 riels, Category: programming

## EX2: Login Form with Cookie

The screenshot shows a login form with a cartoon character (Aang) in the background. The form has fields for Email (abc@gmail.cm) and Password (password), and a green 'login' button.
